NEW

Polar Link brings **internet** connection to a boat, cottage or recreational vehicle **for Wallas units**.

The device allows **remote operation** of the Wallas heaters.

Compatible with new and old Wallas devices like Viking Air, Spartan Water, 22 GB and 40 CC.

Get easily new features for the Wallas units you are using with Polar Link.

Possibility to share the connection to multiple devices at the same time due to Wi-Fi.

First year after the activation is **free of charge**. After this period the device can be easily continued for 3, 6, 12 or 24 months for fee.

Enables the **firmware updating remotely** over the air (OTA).

Possibility to **use the service seasonally** i.e. if there is a period during the year (for example winter) when the service is not needed, the service can be on hold and it can be activated when needed.

Press White Button
to Start the software updating or
to Reset the device

Five short presses to update
Long press (5s) to reset

Led indicates clearly the status of
the internet connection

**INTERNET CONNECTION
FOR WALLAS DEVICES
IN OFF-GRID LOCATIONS**
